➤ PROJECTS

Personal Site

A Website built to document my journey and show my projects

- React, Semantic-Ui React, HTML 5, CSS 3, JavaScript

Pair Programming CRUD API server

A full CRUD API server that I helped create by pair programming efficiently in one day. This server has information about a group of students and a list of cakes.

- JavaScript, Express, Node.js, Heroku

Bookstore App

My first React app that I created in a span of three days. It is made to act like a shopping cart for a bookstore.

- React, CSS, HTML5, JavaScript

Full CRUD Beer Review App

A full CRUD front end React app that uses Semantic-Ui. It connects to a back end PostgreSQL database and Knex RESTful server. In the app you can see beer reviews, create a new review or delete a review.

- Semantic-Ui React, React, PostgreSQL, Knex.js

➤ EDUCATION

Galvanize Denver

2018 - 2019
